

Training Plan - Action Items

This AI Training Plan outlines essential action items to equip CyberArk team members with the skills and knowledge necessary for effective AI development. Through structured training, hands-on workshops, and collaborative projects, we aim to foster a culture of continuous learning and innovation, empowering our team to drive success in AI initiatives.

Color	Status
	Not Started
	Doing
	Done

Category	Action / Activity	Additional information	Estimated Time	Comments
Communication Status: Ready	Know the communication channels for AI	Get to know the communication channels we have for different AI topics. Use it to discuss AI related topics - General AI For Devs Microsoft Teams - Team space for Gen AI etc.: - Bedrock and Gen AI Dev AI For Devs Microsoft Teams - RnD AI Innovators AI For Devs Microsoft Teams (private channel for R&D AI Innovators) - Chatter AI For Devs Microsoft Teams (general AI chat) - Announcements AI For Devs Microsoft Teams (admin only announcements) - Claude Code AI For Devs Microsoft Teams - Coding Assistants - General AI For Devs Microsoft Teams - Cursor AI For Devs Microsoft Teams - GitHub Copilot AI For Devs Microsoft Teams - General 365 Copilot Hub Microsoft Teams - Specifically for MS and 365 Copilots (NOT GitHub Copilot) 365 Copilot News and Updates 365 Copilot Hub Microsoft Teams - CYBR Copilot Community 365 Copilot Hub Microsoft Teams - Microsoft Announcements 365 Copilot Hub Microsoft Teams	10 m	
Bedrock Status: Ready	AWS SkillBuilder	☐ Open a Ticket for License Request in AWS SkillBuilder	0.5 hr	For the AI Innovators: To get a license to AWS SkillBuilder you can open a ticket in service now "AWS skill builder - Access" and you will get a license that is guaranteed for 3 months. After 3 months, according to demand we might need to ask to get a new license, but for now we have 30 licenses saved for the AI Innovators. Then you will need to create an account on: https://skillbuilder.aws/ and you will be able to access all courses as long as you have a license.
	Recommended courses	☐ Building Generative AI Applications Using Amazon Bedrock (Includes Labs)	9hr	
		☐ Increasing Application Security with Bedrock Guardrails and GenAI	2.5hr	
		☐ Foundations of Prompt Engineering	4hr	
		☐ Building cost-effective RAG applications with Amazon Bedrock Knowledge Bases and Amazon S3 Vectors	1.5hr	(Basic RAG is also covered in the "Building Generative..." course)
	Optional Courses (RAG)	☐ Building Retrieval Augmented Generation (RAG) workflows with Amazon OpenSearch Service	1hr	Basic RAG is covered in the "Building Generative..." course, but these are more details. Use them to learn more about implementing RAG systems with AWS.
		☐ Lab - Build and Evaluate Retrieval Augmented Generation (RAG) Applications using Knowledge Bases for Amazon Bedrock	1hr	If you want to learn about using OpenSearch for your RAG's vector db: Another short lab about RAG that includes evaluation:
AI Coding Assistants Status: Ready NOTE: Pick at least one main tool to learn. Optionally learn additional tools.	NOTE: These video and tutorials become stale quickly with new features and capabilities - Keep this in mind and check new features and capabilities (suggestions provided in each section)			

	Cursor	☐ Anyosphere (Cursor) intro sessions: ☐ 101 session 1h ☐ 102 session 1h ☐ Deep-dive cursor session from Hands-on AI (recorded) 1.5H ☐ Hebrew: Cursor Deep-Dive Workshop [Option 6] - Hebrew.mp4 ☐ English: Cursor Deep-Dive Workshop [Option 5]- English.mp4 ☐ All other sessions (duplicated, do not watch both): Cursor (files tab)	3.5hr	Additional optional resources: ☐ Cursor 2.0 - Release Note ☐ Cursor Forum: https://forum.cursor.com/ ☐ Cursor Support email: hi@cursor.com
		☐ Cursor Onboarding (by Chen Reuven) - Cursor AI IDE Developer Onboarding Guide ☐ Cursor Best Practice (by Chen Reuven) - Cursor AI IDE – Developer Best Practices	2hr	
		☐ Cursor Learning Read And Play ☐ https://cursor.com/learn ☐ Cursor Workflow - Video ☐ Resources to read: ☐ Cursor Docs: https://docs.cursor.com/en/welcome ☐ Cursor Guides - https://docs.cursor.com/en/guides/working-with-context ☐ Cursor Web Development - https://cursor.com/docs/configuration/tools/web-development ☐ Cursor Resources: ☐ Cursor Diagrams - https://cursor.com/docs/configuration/tools/mermaid-diagrams ☐ Cursor Directory: https://cursor.directory/		To learn about the latest capabilities also check out Cursor's youtube channel: https://www.youtube.com/@cursor_ai/videos
	Claude Code	☐ Claude Code Tutorial - Basic ☐ Optional, full Claude Code Tutorial (includes the former): https://www.youtube.com/playlist?list=PL4cUxeGkcC9g4YJeBqChhFJwKQ9TRiivY ☐ Optional read: https://blog.sshh.io/p/how-i-use-every-claude-code-feature ☐ Anthropic course: https://anthropic.skilljar.com/claude-code-in-action	3hr	
		☒ Optional: Claude Skills ☐ Optional: Cursor AI Rules - The Missing Manual ☐ Optional: Comprehensive guide to Claude Code: https://github.com/Cranot/claude-code-guide ☐ Optional: Cloud Code Developer Docs	3hr	Additional optional resources: ☐ Claude Code Github Repository ☐ Claude awesome-claude-code ☐ https://neon.com/blog/our-claude-code-cheatsheet
	GitHub Copilot (Beginner /Advanced)	☐ Github Copilot Setup	1hr	☐ awesome-copilot ☐ Docs
		☐ Getting started with GitHub Copilot	0.25hr	
		☐ Academy Day Exercises	2hr	
		☐ Get Started with GitHub Copilot in VS Code (2025) ☐ Unlock GitHub Copilot's Full Potential: Advanced Features You're Overlooking! ☐ Advanced Techniques for Documenting Code with GitHub Copilot ☐ Custom instructions: https://www.youtube.com/watch?v=zwlqBTHjac , docs ☐ Custom modes: https://www.youtube.com/watch?v=rE6svXzyhg0 , docs ☐ Optional: get the latest videos from GitHub here: https://www.youtube.com/@code/videos		To learn about the latest capabilities also check out GitHub, vscode youtube channel and blog: https://www.youtube.com/@code/videos https://www.youtube.com/@GitHub/featured https://github.blog/ai-and-ml/github-copilot/
	Optional: Bonus Content	☐ Coding with Gen AI talk ("Augmented Coding: Mapping the Uncharted Territory"): https://www.youtube.com/watch?v=_LSK2bVf0Lc https://www.linkedin.com/posts/lada-kesseler_generativeai-ai-augmentedcoding-activity-7386955358734409728-Qqbn	2.5h	

Spec Driven Developments with Coding Assistants (SDD) Status: Ready	Optional: Advanced: Standardizing coding agents	NOTE: This is evolving quickly. which some video may say "we now have one file like AGENTS.md" to rule them all, you will find out that we then have also other files to use. So get to know what's out there and hopefully things will get standardized in time. ☐ Simple demo of SDD with Kiro 00:00-06:20 : https://www.youtube.com/watch?v=Z9IUPyowRLI (10m) ☐ Intro to spec driven dev: https://martinfowler.com/articles/exploring-gen-ai/sdd-3-tools.html (15-60m) ☐ Spec driven dev in the real world: https://www.youtube.com/watch?v=3le-v1Pme44 (15m) ☐ What is agents.md: https://www.youtube.com/watch?v=TC7dK0gwg0, https://agents.md/ (10m) ☐ GitHub's SpecKit: post, intro: https://www.youtube.com/watch?v=xgnlBh25a5A (30m) ☐ Optional: Agent OS: https://www.youtube.com/watch?v=kApsR0l9Jfw, https://github.com/buildermethods/agent-os (15m)	2h-3h	
Gen AI For Developers - Practical Status: WIP		☐ Core concepts 101 - embeddings, prompting, fine-tuning, APIs. ☐ TODO: Take topics from here: ai-at-your-service.pptx ☐ Prompt engineering ☐ https://github.com/anthropics/courses/blob/master/prompt_engineering_interactive_tutorial/README.md ☐ system-prompts-and-models-of-ai-tools ☐ AI Coding 101: Ultimate Prompt Guide ☐ Claude Prompt Engineer 101 - Video ☐ Claude prompt engiennner - Docs ☐ https://github.com/NirDiamant/prompt_engineering ☐ Spring AI (Java) - https://youtu.be/qezHjW7oryE?si=TUCF3StqLYvWynkN - how to use, how to integrate with Bedrock. ☐ Vibe Coding Best Practices		
Gen AI Security		• AI Security Training Program for Security Architects and Champions (needs coordination for presenters, or use recordings if available) • Use recordings from: "FW: AI Security Training Program - Module 1" (see Roy's email - move videos to somewhere safe) • labs prompt prison-break		
Gen AI For Developers - Advanced/Theory Status: WIP		• Embeddings • Context Engineering ◦ https://www.anthropic.com/engineering/effective-context-engineering-for-ai-agents • Fine tuning in practice (e.g. fine tune gemma 240m model) • Advanced content (Into ML): ◦ Andrey Karpahi Course: https://karpahy.ai/zero-to-hero.html • MIT 6.S087: Foundation Models & Generative AI (2024): https://www.youtube.com/playlist?list=PLXV9Vh2jYcjbv67sXNDJiO8MWLA3ZJKR • RAG ◦ https://github.com/NirDiamant/rag_techniques ◦ https://x.com/akshay_pachar/status/1987497931465990318		
Automation Status: WIP		• n8n (pending NSR) • AWS SkillBuilder: "Automate Generative AI workflows using Amazon Bedrock Flows" (duplicated from gen ai general training) • MS Copilot Studio - Covered in the AI Innovators Circle		
Evaluation of GenAI Systems Status: WIP		• Evaluation 101 • Popular tools and frameworks • Deep-dive, hands on: Some local frameworks • Deep-dive, hands on: Bedrock evaluation (or other) • Look at diff evals types: 1.Perplexity 2.BLEU/ROUGE 3.Human Eval 4.CodeEval 5. TruthfulQA 6.MMLU 7.GSM8K 8.HellaSwag 9.Winogrande 10.Big-Bench 11.LLM-as-a-Judge 12.Pairwise Ranking 13.Self-Eval 14.Zero-shot Benchmarks 15.Few-shot Benchmarks 16.Adversarial Testing		
MCPs (Model Context Protocols) Status: WIP		• Agentic libraries and framework - langgraph, pydantic.ai etc. ◦ Crew AI ◦ Mastra AI ◦ Pydantic AI ◦ Langchain/Langgraph (Python/JavaScript) ◦ Aws Strands • Agentic platform - bedrock AgentCore, other? • possible resources: ◦ https://huggingface.co/learn/agents-course/unit0/introduction • Duplicated from "Advanced" session - context engineering for agents: https://www.anthropic.com/engineering/effective-context-engineering-for-ai-agents • Security session (internal) - see how to incorporate it - Introduction to Model Context Protocol (MCP) Security - From Innovation To Attack Surface-20251203_170314-Meeting Recording.mp4 ◦ https://ca-il-confluence.il.cyber-ark.com/x/POR8lw		
AI Agents Status: WIP		• https://fly.io/blog/everyone-write-an-agent/ • https://github.com/NirDiamant/genai_agents • https://github.com/NirDiamant/agents-towards-production		

Quality & AI in QA Status: WIP		- TBD - Playwright MCP - Qodo?		
Optional, Extra Stuff: Great YouTube Channels for the AI-Curious Mind (Optional, just extra content)	Coding & Applied Machine Learning	These creators teach how to <i>build and implement</i> AI systems — from model training to MLOps. Andrej Karpathy — In-depth tutorials on neural networks, transformers, and large-scale model training in PyTorch. Jeremy Howard — Co-founder of fast.ai, offering accessible, project-driven deep learning lessons. Hamel Husain — Practical content on applied AI, developer workflows, and modern ML engineering practices. Dave Ebbelaar — Short, practical videos on AI engineering, LLM implementation, and data pipelines for real-world projects.		
	Theory & Conceptual Understanding	These channels help you <i>truly understand</i> how AI and ML work — focusing on math, intuition, and conceptual clarity. 3Blue1Brown — Visually stunning math animations that explain neural networks, calculus, and probability with clarity and elegance. Serrano.Academy — Luis Serrano simplifies ML and AI theory using intuitive visuals and real-world examples. StatQuest with Josh Starmer — Fun, musical, and beginner-friendly explanations of statistics and ML theory that make hard topics feel easy.		
	Research, Education & Academia	Channels offering lectures, courses, and insights from universities or academic circles. Stanford Online — University-level lectures and talks, including CS229 and other machine learning courses. Jeremy Howard — (Also academic-focused) His fast.ai course blends coding and conceptual understanding for learners of all levels.		
	Interviews & AI Discussions	For deep, thoughtful conversations with AI leaders, researchers, and thinkers shaping the field. Lex Fridman — Long-form interviews exploring AI, philosophy, science, and the future of humanity. Machine Learning Street Talk — Technical yet engaging discussions with top researchers on AGI, safety, and cutting-edge ML ideas.		
#Done 😊				

Appendix I - Courses/Videos Dump

These are raw links and courses that can be used in the training program, don't go over as is, use as potential content for training.

Move to the table as needed

potential courses from aws skillbuilder (some courses require a subscription)

- [Building Generative AI Applications Using Amazon Bedrock \(Includes Labs\)](#) 4.5 (73), Advanced, Course duration **9h**
- [Generative AI: Amazon Bedrock \(Advanced\)](#) **4h**
- [Advanced Tool Use Integration with Amazon Bedrock Models](#) **45m**
- [Increasing Application Security with Bedrock Guardrails and GenAI](#) **2.5h**
- [AWS Security: Securing Generative AI on AWS](#) **2h**
- [Advanced Prompt Caching and Response Optimization](#) **3h**
- [Foundations of Prompt Engineering](#) **4h**
- [Automate Generative AI workflows using Amazon Bedrock Flows](#) **30m**

- **Eval**
 - [Mastering Model Evaluation in Amazon Bedrock: From Basics to Best Practices](#) **2h**
 - <https://vercel.com/blog/eval-driven-development-build-better-ai-faster>
- **RAG**
 - [Building cost-effective RAG applications with Amazon Bedrock Knowledge Bases and Amazon S3 Vectors](#) **1.5h**
 - [Building Retrieval Augmented Generation \(RAG\) workflows with Amazon OpenSearch Service](#) **1h**
 - [Lab - Build and Evaluate Retrieval Augmented Generation \(RAG\) Applications using Knowledge Bases for Amazon Bedrock](#) **1h**
- **Agents**
 - [Introduction to Agentic AI on AWS](#) **1.5h**
 - [Amazon Bedrock AgentCore RunTime Tutorial](#) **2h**
 - [Building Production-Ready AI Agents with Amazon Bedrock AgentCore](#) **10.5h**
 - [Integrating Amazon Bedrock powered Agents with Model Context Protocol Servers using the Strands Agents SDK](#) **3h**

Appendix II - Potential Instructors/Vendors

We can check those vendors for possible training content

- Yuval Avidani (he's going to do a vibe coding session in the bootcamp that we are now executing for juniors backend devs - info@yuv.ai)
- Ynon Perek - ynon@ynonperek.com (blog: <https://www.tocode.co.il>)
- Gilad Shoham – shoham.gilad@gmail.com (<https://gilad.dev/>)
- Nir Diamant - <https://www.diamant-ai.com/>
- Ben Rotenberg - [linkedin.com/in/ben-rotenberg](https://www.linkedin.com/in/ben-rotenberg) (+972-52-802-5370)
- HandsOnAI - Yaron Karlinski - They gave the "Cursor Deep Dive" sessions
